*Note:

At the end of the lending period, we will return the same amount of CAICA COIN (CICC) that was lent out, as stated under "Lending Amount." The total amount returned will include both the original quantity of CAICA COIN (CICC) lent out and the interest accrued over the lending period calculated at the specified interest rate.

For example, if the lending amount is 20,000 CICC and the monthly interest is calculated at an annual rate of 200%, this translates to approximately 3,340 CICC in interest.

Therefore, after using our lending service for one month, the total amount to be returned will be approximately 23,340 CICC. Please ensure you understand these terms to avoid any confusion.
